#### **SUPPLEMENTARY INFORMATION:**

Agenda: The committee will discuss new drug application (NDA) 203446, imatinib mesylate, submitted by Novartis Pharmaceuticals Corp., as adjunctive therapy for the treatment of pulmonary arterial hypertension (WHO Diagnostic Group 1), to improve exercise capacity and cardiopulmonary hemodynamics in patients who remain symptomatic despite treatment with two or more approved vasodilator therapies ("vasodilator therapies" refer to medicines used to dilate blood vessels and thereby reduce resistance to blood flow).

FDA intends to make background material available to the public no later than 2 business days before the meeting. If FDA is unable to post the background material on its Web site prior to the meeting, the background material will be made publicly available at the location of the advisory committee meeting, and the background material will be posted on FDA's Web site after the meeting. Background material is available at <http://www.fda.gov/AdvisoryCommittees/Calendar/default.htm>. Scroll down to the appropriate advisory committee link.

Procedure: Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Written submissions may be made to the contact person on or before August 29, 2012. Oral presentations from the public will be scheduled between approximately 1 p.m. and 2 p.m. Those individuals interested in making formal oral presentations should notify the contact person and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time requested to make their presentation on or before August 21, 2012. Time allotted for each presentation may be limited. If the number of registrants requesting to speak is greater than can be reasonably accommodated during the scheduled open public hearing session, FDA may conduct a lottery to determine the speakers for the scheduled open public hearing session. The contact person will notify interested persons regarding their request to speak by August 22, 2012.

FDA welcomes the attendance of the public at its advisory committee meetings and will make every effort to accommodate persons with physical disabilities or special needs.
